DRAMATISTS MUST BE PAID FEES

Mr. St. John Ervine, speaking at a luncheon of the Performing Right Society in London, said that but for the Society's work many of those present might be selling matchés outside. They would not do so well because if it were realised that they were musicians or dramatists the public would expect the matches for nothing.

Mr. Ervine criticised those who expected composers and dramatists to allow their work to be performed for nothing. most honourable people world," he said, "become the foul- horrible. It's no better now." lest kind of thugs where we are concerned."

BARRYMORE SINGS 'CASEY JONES'

Lionel Barrymore recently spent morning singing the old railway ballad, "Casey Jones," for a comedy episode with Bobs Watson in Metro-Goldwyn-Mayer's "On Borrowed Time." NO PUNCHES PULLED IN THIS SCRAP.

The Wallace Berry-Robert Taylor free-for-all, anything-goes fist fight staged in "Stand up and fight" in which the stars will be seen together for the first time on the Queen's and Alhambra screens, will probably go down in film history as one of the wildest and most realistic battles ever to take place before the cameras. Berry is a veteran in film battles, whereas young Taylor gained considerable experience in his recent role as the fighter in "The Crowd Roars." So it was an even match, with no punches pulled!

AN OLD LAW OF THE SEA

"For 80 years," said Mr. Justice Langton, giving judgment in an appeal heard in the Admiralty Court. "it has been the rule of this court that the doctrine of common employment protects shipowners from personal injury claims by members of a crew in a collision due to the default of their own navigating officer,

"I have been asked to decide, in the case of a collision in the Irish Sea between the Laurentic and the Napier Star-when six of the crew of the Laurentic were killed and one of the crew and a passenger in the Laurentic were injured—that that protection is no longer available to the shipowners.

MINOR TROUBLES THAT MAR THE JOY OF LIVING: HUMAN WEAKNESSES

By Josephe Brice

"Life is not worth living!" Is that not one of the most common of our common places? Or at least we hear it most often, uttered not only by the desperate Romantic, by Werther or Byron, but even by the most positive people who, annoyed by all the minor troubles of life, exclaim impatiently: "Life is not worth living!"

We are so impatient and so superficial that we suffer more through these little troubles life, accumulated and repeated, than we do for a grave illness, for example; and there are a great many of them, of every kind, from the atmospherical, if I dare say so to the sentimental ones.

COUNTRY NOW LARGELY SELF-SUFFICIENT

HONGKONG, July 24 (T/Ocean)—In the course of a lengthy private conversation which Marshal Chiang Kai-shek had at Chungking, with Mr. Hans H. P. Melchers, General Manager for the Far East of Transocean, the Generalissimo showed much interest in Sino-German relations, stating that these could be considered generally as being quite satisfactory. He added that China was a very old friend of Germany's.

Touching upon the question of relations between. the Kuomintang and the Communist party in China. Generalissimo Chiang Kai-shek emphatically asserted that "China has no Communists." What there was under the name of Communism, certainly could not be regarded as such in the sense given to it in Europe.

All Chinese nationals were, first and foremost, Chinese and as such assisted in the work of national resistance. The co-operation of China with Soviet Russia did not in any way signify any adherence by China to Soviet Russia's ideological beliefs, but constituted merely th relations between two friendly powers.

Speaking about the military and economic reserves of China, Generalissimo Chiang Kai-shek declared that China had practically become independent of foreign imports and could continue economically and militarily to carry out the present resistance for an indefinite time...

Largely Self-sufficient

Economically China was now largely self-sufficient and the cutting off from Shanghai and Hongkong had really improved China's position, as this had put the country on a basis where it had learnt to do without many things and as this prevented China from importing a mass of goods for industries which were not a vital

Szechuen alone, for England." (oh really). instance, was about as big as Germany and in addition there were all the other provinces, the exploitation of which had scarcely begun and which offered huge possibilities.

Peace Prospects

Discussing the prospects of peace. the Generalissimo stated that there certainly was no hope for peace as long as the Japanese did not with draw their troops from China.

What China was fighting for now was to drive out the Japanese forces and, therefore, the Chinese Government could not consider any peace negotiations before this object had not been achieved. As regards any mediation proposals. none could be accepted if the withdrawal of Japanese troops from China was not embodied therein.

Confident Note

The Generalissimo closed the talk, which lasted nearly an hour, on a confident note. He showed great vivacity, a pleasant humour and a quick interest in all aspects of questions put to him, while at the same time showing his own interests in various matters by putting a great number of questions himself.

Mr. Melchers is the first German journalist to be received by Generalissimo Chiang Kai-shek since the latter left Hankow.

SHANGHAI SHOOTING AFFRAY

FRENCH PRESS PLEASED REPORT OVER TOKYO

LONDON, July 24 (Reuter) - Hitherto the only information on yesterday's conversation between Sir Robert Craigie, the British Ambassador in Tokyo, and Mr. Arita, the Japanese Foreign Minister, have come from Japanese sources.

In official circles in London it is held that these reports must be treated with reserve until Mr. Chamberlain makes his statement in the House of Commons to-day. In the meanwhile, it is wise to withhold judgment.

It is recalled that Mr. Chamberlain, in his statement to the House of Commons on June 28 said that the conversations would relate to local issues and he has since stated that the discussion ranged over the general background of the Tientsin at first appeared possible. incident.

The paper expresses satisfaction that British ships will not now go and lose themselves in Chinese waters. "It is Deace in Europe that counts and our Allies have understood this." concludes the paper.

of the factors which decided the Japanese Government to make the settlement relatively easy. Anti-British agitation was being used as a cover for the revival of extremists activity.

The majority of the ruling elements in Japan, alarmed by these dangerous undercurrents, pliently supported, behind the scenes, those who strove for a settlement and the Government also realized that if the present opportunity was lost, Anglo-Japanese relations would become irrevocably hostile.

Japanese Athletes In Colombo

Ten of Japan's best athletes in track and field events passed through Colombo on the Haruna Maru on their way to Berlin to compote in a triangular contest with Germany and Italy.

They came ashore and availed themselves of the opportunity of a limb loosener on the University College grounds, where they attracted a considerable amount of attention.

On their arrival on the grounds the team went through a set of several stretcher exercises and the whole team went round the ground together at a steady trot, Their long distance runner, Yamashita kept this up at a steady pace for nearly an hour while the others put in some practice at their various events.

High Jump Champion H. Tanaka, Japan's finest high jumper, who took part in the last Olympic games, was seen in action with two other jumpers. All of them cleared 5 feet 10 inches without any undue effort. One of the jumpers sprained his ankle and

SOVIET THREATS IN BALTIC

SWEDEN, NORWAY; FINLAND WANT ALLIANCE.

OSLO, July 24 (Transocean)-The conclusion of a comprehensive military alliance between Sweden, Norway and Finland, to protect the three Scandinavian States against the threat of a Soviet Russian expansion in the Baltic, is demanded on Sunday by the organ of the Liberal Party of Norway, the "Tidens Tegn."

neutrality after the conclusion of to London and Paris. the Danish-German non-aggression treaty. Finland. Norway and Sweden, however, are threatened by the new course of Soviet Russian foreign policy Soviet Attitude

Russia's attitude in the questions of fortification of the Aaland Isles and her demand for a guarantee of Latvia, Estonia, Lithuania clearly showed that the Baltic and the States bordering it once more are regarded by Moscow as a Russian sphere of interest.

If by means of guarantee provisions the Soviet-Union had occupled the small neighbouring countries. Sweden and Norway would automatically become the next object of Soviet Russian Imperialism.

It was, therefore, a joint task of the three Scandinavian countries to organise defences on lines of a defence alliance as had been proposed during the Great War already by a group of patriotic men, among them Fridtjof Nansen.

The market opened 1/4 of a cent higher for all deliveries as compared with Friday's closing quotations. The market ruled steady early in the morning due to better de-

mand for Immediate and near deliveries, particularly from New Subsequently, however, the market turned very dull, operators

apparently awaiting the result of the July 25 meeting of the International Rubber Regulation Committee. In view of this fact there was lack of speculative buying interest as well as absence of selling pressure all of which made for market inactivity.

American Motorcar production for the week ending 21 instant showed a sharp decline which, however, is seasonal. Reports on American business-recovery continue to be favourable. It is, therefore, feit that further price-improvements may be confidently anticipated, always providing that the market will not be subject to outside influences such as labour troubles, political tensions ets.,

The average forecast of last week's stocks of rubber in Londor and Liverpool shows a decrease of 2,400 tons.

NEW YORK COTTON

Early in the session the market ruled irregular, easing slightly on liquidation and selling. Later however, good buying and covering advanced prices. Weather, crop prospects and the forthcoming subsidy announcement are all major market influences.

Market closed.

CHICAGO WHEAT

Prices moved lower on the easier Winnipeg market, also on liquidation and profit-taking. Rainfall in Canada was a favourable factor, but was insufficient to affect the market to any extent. The subsidy announcement, probably next week, is awaited with interest both in Chicago and Winnipeg.

British Credit Plan To Germany

PROPOSAL NOT OFFICIALLY MADE

LONDON, July 24 (T/Ocean)-A British credit to Germany, the reports of which have been much commented upon during the week-end, was suggested to the representative of the Reichs Ministry of Economics, Dr. Wehltat, by the Secretary of the Board of Overseas Trade, Mr. R. S. Hudson, it is prominently reported by the "Daily Express," the "Daily Mail" and the "Daily Telegraph" on

Monday morning. The former two papers received a communication from Mr. Hudson in which he complained of a misrepresentation of the talk he had had with Dr. Wohltat. He had told Dr. Wohltat of a credit plan, not in an official capacity. as the press had given to under-

stand, but in private. According to the papers, the credit plan had contained the suggestion that Germany should be given access to the raw materials of the world and should be given economic and financial support in the task of switching the German industry from rearmament to

No Figures, Mentioned

In return, Germany should surrender Czechoslovakia and should give consent to a limitation of armament or disarmament, res-

pectively.

In the letter to the papers, Mr. Hudson emphasises that no figures had been mentioned in the talk between Dr. Wohltat and himself. The "Daily Telegraph" reports that a week ago, the name of the Secretary of the Department of

He would raise an objection, Mr. da Silva said, to the improper summons brought against his clients. He would object to the wording of the summons, and claim that it bore no relation to the section in the Building Ordinance mentioned in the summons.

SOLUTION SOUGHT

His clients had addressed a petition to the Building Authority, Mr da Silva sald, in which they had explained their difficulties, and they sought a solution whereby they could pay a premium for building land, and Building thority could then impose conditions as would be necessary to insure conditions of sanitation.

"On behalf of his clients, Mr. da Silva said, he would plead guilty to having unlawfully permitted to be erected the two houses, and on behalf of the third defendant he would return a plea of not guilty as the latter had not had such a house constructed.

He would plead in mitigation.
